

2014 SNAP® 4Dx® Plus Test positive results reported by participating veterinary practices  
**Maritime Provinces**

To learn more about the vector-borne diseases screened with the **SNAP® 4Dx® Plus Test** and how your pet may be at risk, consult with your veterinarian or visit [www.PetDiseaseReport.com](http://www.PetDiseaseReport.com).

The information contained herein is sourced and compiled from the Real-Time Pet Disease Reporting website and is intended for educational purposes only. It is not intended nor implied to be a substitute for professional medical advice. As with any diagnosis or treatment, veterinary professionals should use clinical discretion with each patient based on a complete evaluation of the patient, including history, physical presentation and complete laboratory data. Pet owners should always consult his or her veterinarian to determine the appropriateness of the information for their own situation or if they have any questions regarding a medical condition or treatment plan. The data collected and presented on the Real-Time Pet Disease Reporting website is self-reported and recorded. Although quality control measures are in place to verify user data, the accuracy of the data cannot be guaranteed at any given time. All data collected and presented on the Real-Time Pet Disease Reporting website is property of IDEXX Laboratories.
